We know businesses invest in their upholstery. That's why we provide free estimates and the most cost-effective solutions. We know that something as "small" as an unpadded edge will reduce the life of your upholstery by as much as half, and that certain kinds of foam are going to wear out sooner than others.

“First State Manufacturing is changing the way the hospitality and restaurant industries think.”

In fact, we set the standard when it comes to working with long-lasting materials. Our customers are confident that they're getting the best level of durability and comfort on the market. Our promise is to find the MOST beneficial solution for each and every one of our customers. In fact, if your upholstery needs aren't something we can accommodate, or if we aren't equipped to give you the best price, we'll direct you to another dependable upholstery service that can.
